MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is a total solutions provider of EGE for land-based casinos in Macau SAR as well as other regions in Asia. EGE principally includes electronic table games and electronic gaming machines. The Group's business can be segmented into: (1) the technical sales and distribution of EGE to land-based casinos; (2) the provision of repair services to casino operators; and (3) the provision of consultancy and technical services.

The Group's business is conducted through its wholly-owned subsidiaries, including Asia Pioneer Entertainment Limited ("**APE Macau**") and APE Smart Commerce Limited ("**SmartCom**"). APE Macau and SmartCom are the operating companies of the Group, which operate the core businesses in Macau SAR. For the Period, APE Macau and SmartCom's revenue represented all of the revenue of the Group.

The Group's performance for the third quarter of 2021 continues to be adversely affected by the outbreak of the novel coronavirus disease 2019 ("**COVID-19**") in Macau SAR and Southeast Asia. As a result, there was a weaker demand for technical sales and distribution of EGEs of the Group.

FORWARD OUTLOOK

The Group remains concerned about the impact of the ongoing outbreak of the COVID-19 on the operations of its land-based operators in Macau SAR and Southeast Asia. The Group still hopes that its business activities can quickly return to pre-COVID-19 levels.

During the Period, the Group began implementation of its diversification strategy under SmartCom into smart vending machine ("**VM**") operations in Macau SAR. The Group's underlying rationale for diversifying into smart VMs are as follows: 1) The Group has extensive experience in maintaining, repairing and operating consumer-related machines; 2) The Group has extensive experience integrating software platforms and machines; 3) As a Macau SAR based company with over 15 years of operating history, the Group has intimate local knowledge and relationships with locations such as hotels, malls, visitor sites throughout Macau SAR; 4) The smart VMs business as part of the growing smart vending market aims to provide convenience to travellers and mobile consumers, it is a fast growing market; 5) Smart VMs has benefitted from advances in cashless payment and new information technologies, and has proven to be highly effective in selling and distributing products to consumers; and 6) Smart VMs can be used to promote and deliver quality Macau-branded products to the numerous tourists that visit Macau SAR on a regular basis.

During the Period, the Group has installed 16 units of smart VMs in Macau SAR under our SmartCom brand. SmartCom has also signed consignment and purchase agreements with several Macau branded products for our smart VMs. The Group is now implementing our roll-out strategy. We are hopeful that more smart VMs can be rolled out to various locations throughout Macau SAR at the end of 2021.
